USAGE GUIDELINES

Navy Blue → Primary background for covers, headers, and dominant brand surfaces. Pair with white or yellow text only.

Scope Yellow → The energy of the brand. Reserve for CTAs, key data callouts, accent bars, and moments of emphasis. Never overuse.

White & Off-White → Default backgrounds for documents and body content. Off-White (#F7F6F2) is preferred over pure white for print.

Navy Tint → Use for card and section backgrounds where navy would be too heavy. Maintains brand warmth at low contrast.
